## Bargain List of Bulbs, Etc.

For Sale By

J. C. JAY,

Eureka Springs, Arkansas

Owing to failing health, I am closing out my stock of bulbs, etc., not that I am quitting entirely, for as long as I am able I intend to raise flowers, but in smaller quantities. I was born in 1864 at Mt. Pleasant, Iowa, and have been growing fruits and flowers for over 40 years. I am a member of the American Gladiolus Association. I refer you to the First National Bank, Mt Pleasant, Iowa, and the First National Bank, Eureka Springs. I guarantee all bulbs true to the name; if a mistake occurs, I will replace 2 for 1 or refund the money. Bulblets are hand-picked bulblets of the strong growing kinds, that usually bloom here the first season. Many customers write me of their wonderful success after treating bulblets my way. Many customers in many states tell me they have purchased bulbs from many states and that my bulbs produce stronger spikes and flowers. Many ask me how I can sell so cheaply. I plant bulblets in February and March and dig large bulbs from them in October. Order Early; the early orders get the most free extras. "L" means large bulbs, 1 1/4 in.; "M" means medium bulbs, 3/4 to 1 inch; "S" means small, 3/4 down. Most of the small ones will bloom with good care. Orders under $3.00 if you want them in sured, send 5c extra; orders of $3.00 or more are sent insured. 25 per cent will hold your order until March 1st. Sells under $1.00 can be sent in unused stamps. Send me any amount; you wish to invest in bulbs and I will select for you a collection of the best at reduced prices. Everything on this list is sent prepaid. Bulbs will be sold at the price of 5; 12 at the price of 10. If you want just a few bulblets or planting stock of anything on my list, write me and tell me how many of each and I will quote lowest prices. Some varieties are limited, orders early, I would appreciate a list of second choice, as I sometimes give free extras from it.
